

EVER DREAMED OF GOING ON SAFARI?

With Richard Schmid as your personal guide you will experience Kenya with all its facets and backgrounds. Thanks to Richard's knowledge of personal closeness to the country and its people your journey of discovery will be an exciting treasure hunt through the savannah. Not only will you encounter wildlife, you will also receive an insight into the culture and people of Kenya. Relaxing moments in the tent camp as well as atmospheric evenings by the campsite ensure a rounded experience.

Richard and his native colleague will lead you safely through the heart of the bush on extensive nature walks and game drives. They will inform you about the diverse and rich local life in Kenya as well as offering insights into the opportunities and risks of wildlife protection programs. Eco Safari is also committed to contributing to your understanding of local community involvement. During your trip, you will visit orphanages and schools and meet local people committed to community development.

AT HOME IN NATURE

We ensure that our guests are accommodated in ecologically operated camps and lodges.

An overnight stay in the middle of the bush in a tent camp or in a lodge is a unique experience. After sunset, you can enjoy the experiences of the day at the campfire, discuss and exchange ideas with other guests, while listening to the unfamiliar night sounds. You will spend the night in tents with appropriate equipment. The tent lodge offers somewhat more comfort. All house tents have their own WC and shower. Our kitchen team will conjure up wonderful menus on an open fire. All our staff are very courteous and always anxious to ensure your stay is as pleasant as possible.

EXPERIENCE AFRICA

On our varied routes you will experience the versatility and excitement of Kenya. Our safaris usually last between 10 and 14 days and take place in the interior of the country (land arrangement). Additional days at the Indian Ocean can be organized individually. We will be happy to advise you if you wish to extend your stay.

PRIVATE SAFARIS

Would you like a safari individually arranged for you? We are happy to advise you personally and answer your questions. We will provide you with valuable information on preparation and travel. Arrange a non-binding appointment with us.

NATUREWALKS AND GAMEDRIVES

Those who decide to explore the bush by foot will experience nature intensely and up close. Our local guide will lead you safely through the Savannah on extensive bush hikes while pointing out traces of cats of prey, termite mounds as well as numerous animals and plants in their natural environment. On game drives you can observe the animals in close proximity from the safety of the jeep while learning many interesting facts from the guide.

YOUR GUIDE

Behind Eco Safari is Richard Schmid, a certified guide and nature lover, as well as other certified guides on site, all of who know the bush and look forward to taking you on a journey with them into the vastness of Africa.

RICHARD G. SCHMID

- Safari Guide "Level 2"
- Member of Field Guide Association South Africa "FGASA"
- Certified by Cathsseta South Africa

Richard was born and educated in Kenya. He looks forward to introducing you to the animal and plant world. Giving his customers an understanding of the life of the local community is also a matter close to his heart.

"EVEN BEFORE I LEFT AFRICA,
I KNEW I WOULD MISS ITS VAST PLAINS"

Ernest Hemingway, Green Hills of Africa
